Scripps Network Content Management System
Editor's view of draft and published articles

by: Tina Roth Eisenberg, dotmatrix llc.
date: 08/28/07

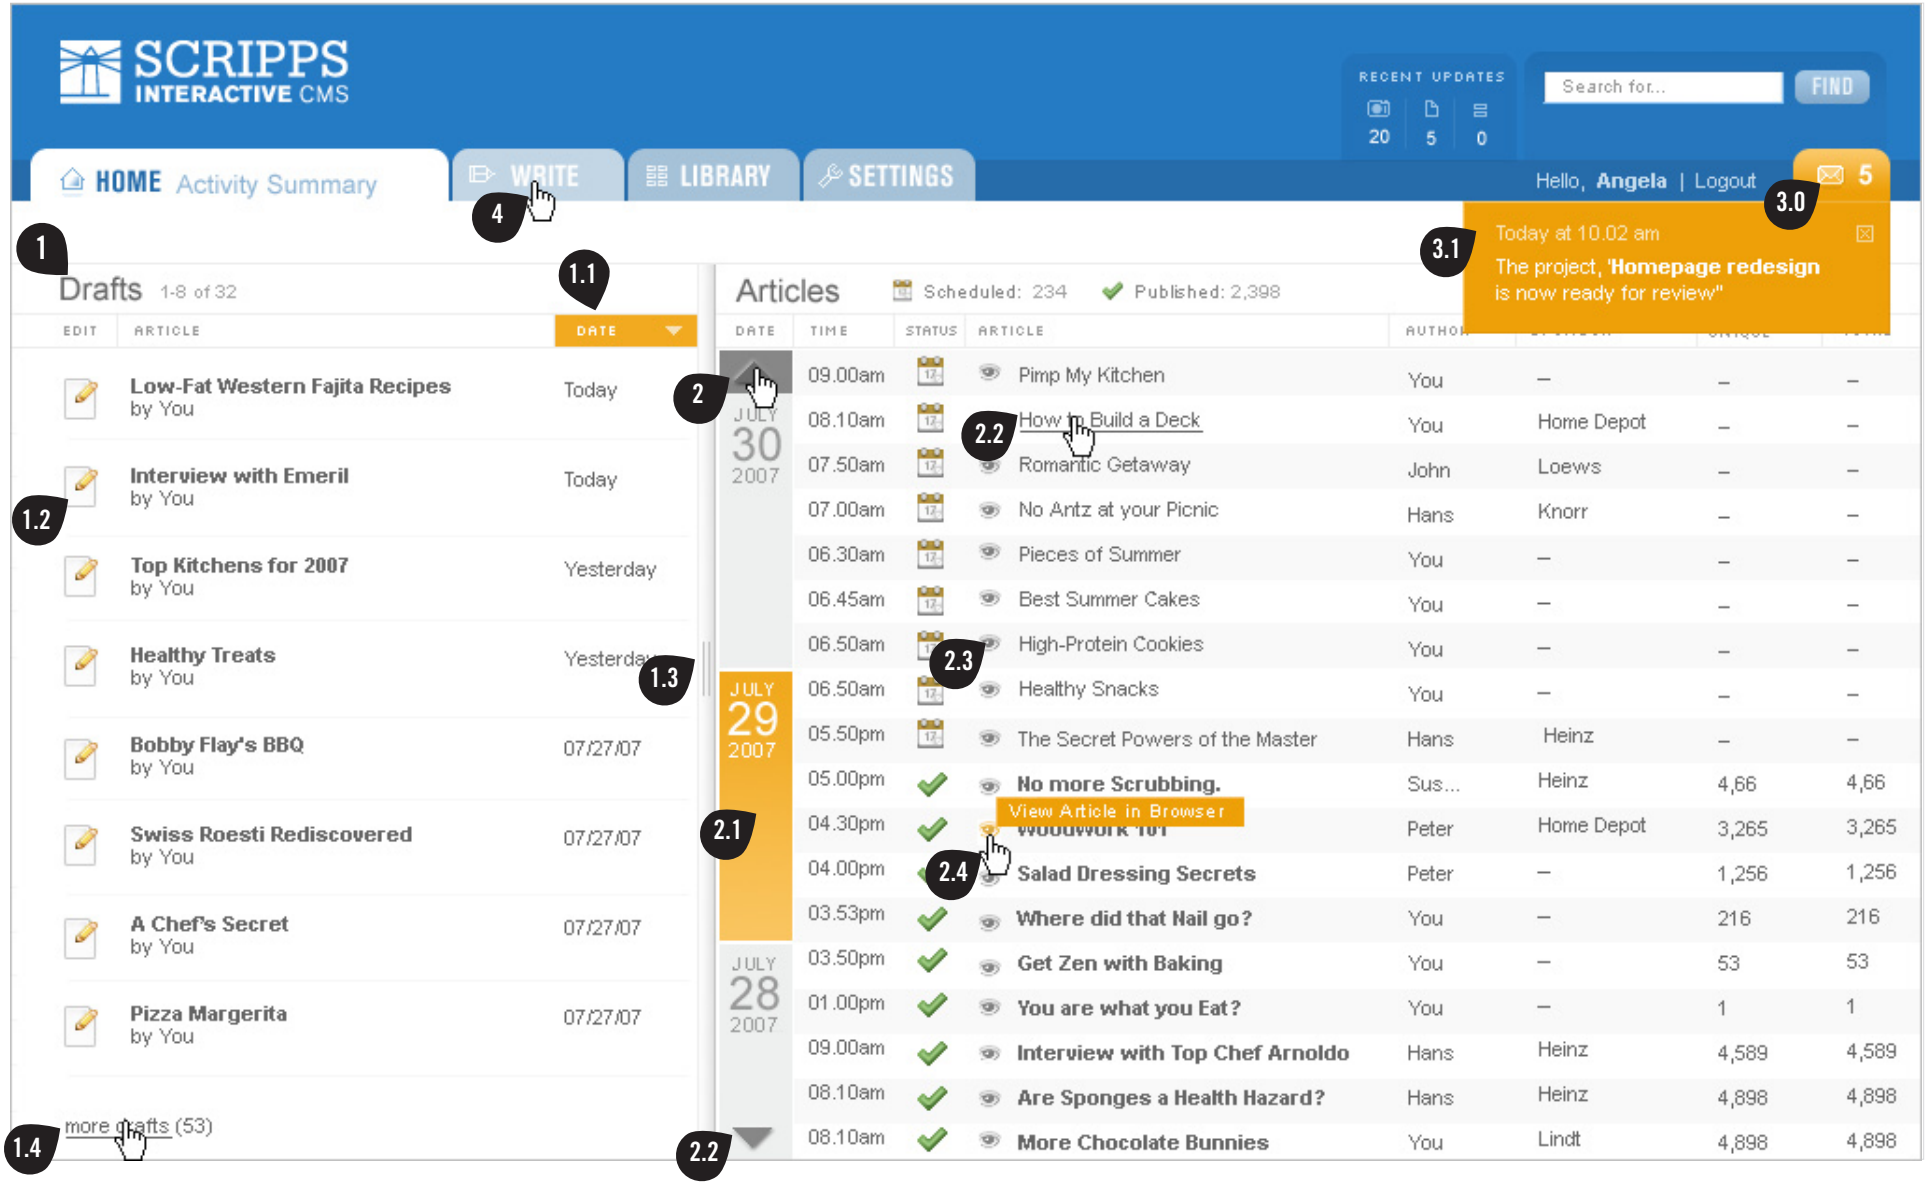

v.02

Editor Dashboard, logged in as Angela. Her most recent drafts are prominently visible in the left pane. Clicking on an edit icon or any of the article titles will take Angela to the *Edit Article Mode*. The 'Articles' pane on the right gives Angela a quick overview on what has been published and scheduled today, tomorrow and yesterday. She has the option to either view everyone's articles or just the ones she's been working on. Currently everyones schedule is being displayed.

Editor Dashboard, logged in as Angela. The system displays an asynchronous message on the top right of the screen to alert Angela that the "Homepage redesign' is now ready for review. By clicking on the orange area, or the 'x' on the top right, the message will dissapear.

Please refer to legend on next page.

1.0 The drafts column shows Angela's most recent drafts.

1.1 The orange date column header indicates that the drafts list is sorted by date. Clicking on the arrow will reverse the sorting order.

1.2 The "Drafts Icon" is clickable and opens the article in edit mode. Same with clicking the article title.

1.3 The divider lets you set the screen real estate for the articles and drafts pane.

1.4 By clicking 'more drafts' the user will be taken to a new view with all drafts.

2.0 By mousing over the arrow (both up and down) the background color of the arrow changes to dark grey. On mouse-click the list of articles scrolls forward or backward in time, depending on the arrow.

2.1 Today is highlighted in orange to draw the users attention on today's articles.

2.2 Article titles underline on mouse-over and take you to the edit article mode when clicked.

2.3 Clicking the 'eye-icon' lets you preview an article in a browser window.

2.4 Tooltips appear when mousing over a clickable item, explaining the action that can be taken.

3.0 The mailbox tab shows the number of new messages in Angela's inbox. Clicking the tab opens the inbox.

3.1 Asynchronous messages appear underneath the message icon. Clicking the 'x' on the top right closes the message window.

4. Subtle color change of tab on mouse-over.
